About Tacteasy

As a world-leading expert in interactive display and digital signage solutions, Tacteasy integrates hardware manufacturing, software development, and system optimization to deliver seamless, high-efficiency interactive experiences. With a monthly production capacity of 6,000 interactive devices and a service network spanning 100+ countries, we empower digital transformation across education, enterprise, and commercial sectors.

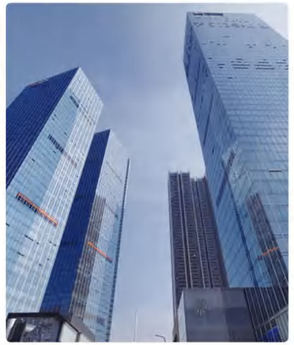

Core Strengths

- Innovation-driven: 17 years of dedicated R&D in interactive technology, with patented advancements enhancing hardware-software synergy.
- Globally Proven: Dual-certified for reliability and ease of use, with industry-leading customer satisfaction.
- Agile Adaptation: Flexible production lines rapidly respond to evolving market demands.

Interactive Flat Panel Display - C Series

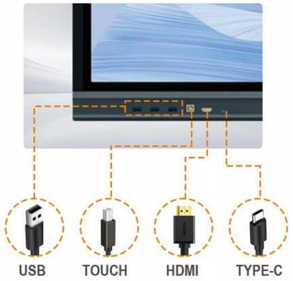

Features

- High-color Gamut and 4K UHD Display
- Wireless Screen-sharing, Cable-free Collaboration
- Zero-bonding Technology for Superior Clarity
- 40-point Touch Interaction, Reshaping the Collaborative Experience
- Full-function Type-C: Projection, Touch, Charging All-in-one
- AI-powered Intuitive Interaction and Effortless Efficiency
- Support Remote Collaboration to Achieve Global Collaboration
- Split Screen Enables Simultaneous Operation of Two Applications

UHD Resolution | Zero Bonding | 40 Touch Points

Split Screen | High Brightness | High Precision Writing

Available Colors

Interactive Flat Panel Display - C1 Series

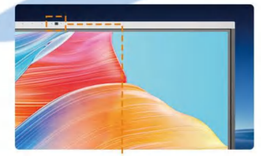

Features

- 48MP Camera for Ultra-detailed Imagery
- Voice Recognition Technology to Improve Operational Convenience
- Supports Large Viewing Angle Coverage, Reduces Surveillance Blind Spots
- Intelligent AI Recognition: Supports Face Recognition and Tracking
- Two-way Voice Intercom: Support Real-time Voice Communication
- High-color Gamut and 4K UHD Display
- 40-point Touch Interaction, Reshaping the Collaborative Experience
- Full-function Type-C: Projection, Touch, Charging All-in-one

UHD Resolution | Zero Bonding | 40 Touch Points

Split Screen | High Brightness | High Precision Writing

Available Colors

Interactive Flat Panel Display - E Series

Features

- Available Size: 55''-110''
- Dual-edge Touch Frame Design, Premium Cost-efficiency
- UHD 4K Resolution for Stunning Visual Clarity
- Zero-bonding Technology Enhances Writing Experience
- Single & Double Systems Customized to Your Preferences
- 20-point Touch with IR Technology for Seamless Interactions
- Energy-efficient with Low Power Consumption
- Easy, Wireless Screen-sharing
- Integrating Advanced AI, Smarter & More Interactive

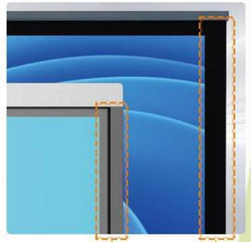

UHD Resolution | Zero Bonding | 20 Touch Points

Split Screen | USB Type-C | High Precision Writing

Other IFPDs Have Borders | Bilateral touch

Available Colors

Interactive Flat Panel Display - L Series

Features

- RK3588 Octa-core CPU Delivers 2.4GHz Processing Power
- Non-air-gap Bonding Ensures <0.5mm Touch Precision
- HDMI / Wireless Multi-screen Collaboration with One-click Switching
- 16GB RAM + 512GB Storage for Intensive AI Tasks
- Quantum Touch Layer: 0.5ms Latency, ±0.01mm Accuracy
- Noise-canceling Mics Enable Voice Control and Transcription
- Aerospace Titanium Frame: 9.9mm Ultra-slim, 40% Lighter
- Fingerprint / NFC Encryption Enhances Device Security
- Can Be Mounted on Non-load-bearing Walls

UHD Resolution | Non-air-gap | 40 Touch Points

AI Assistant | USB Type-C | High Precision Writing

Available Colors

NFC | FingerPrint

Intelligent Blackboard

Features

- Combines Digital Touchscreen with Traditional Chalkboards
- Supports 20-point Touch and Gesture Operations
- Switch Instantly Between Digital and Analog Writing
- Keeps Familiar Boards While Introducing Digital Tools
- Allows four Students + Teacher Simultaneous Interaction
- Syncs with Cloud Platforms and AI Tools
- Scratch-resistant Surfaces Withstand Heavy Classroom Use
- Works with All Major OS and Devices

Hybrid Design · 20 Touch Points · Collaboration Ready

AI Assistant · USB Type-C · Durable Construction

Manual Lifting Touch Table

Features

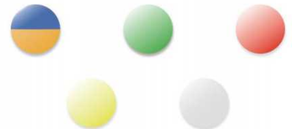

- 4K Ultra HD Display for Stunning Visuals
- 20-point Capacitive Multi-touch Precision
- Octa-core Power with Android 14 Efficiency
- Durable Metal Build with Tempered Glass
- Ergonomic, Child-safe, Height-adjustable Design
- Flexible Connectivity with USB, HDMI, Type-C
- Manual Height Adjustment, Detachable for Easy Installation
- 360° Rotation for Enhanced Immersive Experience

UHD Resolution · 4 Direction Rotation · 20 Touch Points

Google Play · Manuel Lift · Capacitive Technology

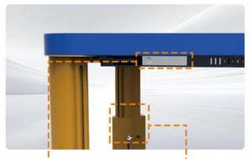

Available Colors

Switch Button · Adjustable Legs

Automatic Lifting Touch Table

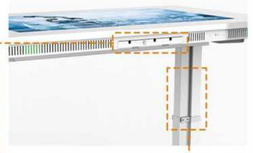

Features

- 360° Rotation for Enhanced Immersive Experience
- Built-in WIFI for Stable High-speed Wireless Access
- Supports Android and Windows for Seamless Device Integration
- Low Power Consumption with Smart Power Management
- Triple Protection, with Waterproof and Explosion-proof Functions
- 178° Wide Viewing Angle and 4K UHD Screen for Immersive Visuals
- Ergonomic Design with Automatic Height Adjustment
- Multi-touch with 6ms Response Time for Smooth Interaction

Mobile Stand-P220

Features

- Available for 75-90 Inch Screen Monitors
- Stable & Durable Brushed DC Motor
- Smart Touch Panel with Height Display
- Large Load Design for Stability & Reliability
- Quick-detach & Lockable Wheels for Easy Movement
- Vesa-compatible, Fits Most Displays

Built-in Smart Chip

Strong Torque Motor

Anti-slip Hook

360° Steering Wheels

Child Safety Lock

Dual Operation Mode

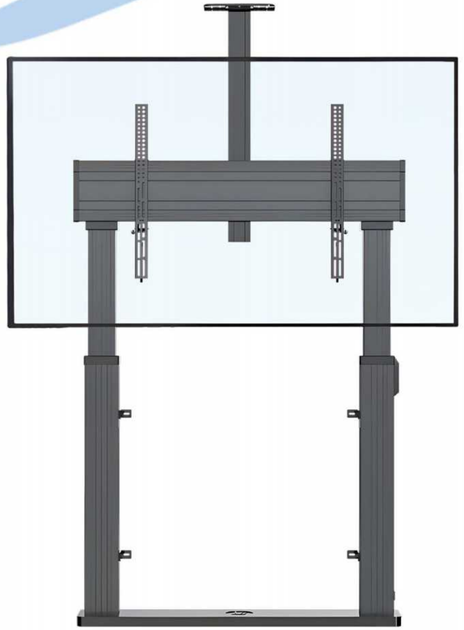

Mobile Stand-T80

Features

- Available for 75-120 Inch Screen Monitors
- Supports Wireless Remote Control or Touch Operation Mode
- High Load-bearing Capacity, Up to 300 Lbs
- Built-in Child Safety Lock to Prevent Accidental Adjustment and Ensure Safe Use
- Electric Lift Function Supports Electric Adjustment of Screen Height
- Vesa-compatible, Fits Most Displays

Built-in Smart Chip | Strong Torque Motor | Anti-slip Hook

Overstable | Child Safety Lock | Dual Operation Mode

Mobile Stand-T100

Features

- Available for 75-120 Inch Screen Monitors
- Electric Height Adjustment with Wireless Remote and Touch Controls
- Quick-release, Lockable Wheels for Easy Mobility and Stability
- Durable Material, High-strength Structure, Non-slip Base for Stability
- Height Memory Stores Preset Positions for Quick Recall
- Vesa-compatible, Fits Most Displays

Built-in Smart Chip | Strong Torque Motor | Anti-slip Hook

360° Steering Wheels | Child Safety Lock | Dual Operation Mode

Camera

Features

- 4K Ultra-high-definition Picture Quality
- With 4-X Digital Zoom for Easy Framing Adjustment
- AI Tracks Facial Features
- 8-Microphone Array, Superior Sound Pickup
- Equipped with Fixing Clip, Free to Choose the Installation Position
- Intelligent Noise Reduction, Eliminating Echoes

Gesture Recognition

Capturing Faces

Sound Tracking

Built-in Microphone
